

KBTA Scales

KBTA series scales offer high technology components and design at a realistic cost.

Advantages of the KBTA Scale

- Can be controlled by microprocessor and PLC
- Up to 255 scales can be connected and controlled through a single network
- Scales use TCP/IP communication, allowing them to report locally or through the internet
- Electronics support 100Mbit communications speed
- System setup to utilize SMS for communications with pocket electronic devices

Input power supply: Customized for local current
Operating voltage: 24v DC
Energy consumption: 62va
Compressed air usage: 6 bar/86 psi
Working temperature range: -10°C/14°F to 45°C/113°F
Working humidity range: Up to 85% relative humidity
Accuracy: 0.1%
